VISION BENEFITS
FOR EVERY SET
OF EYES

Where do you

want to start?

My eyesight needs help

With an EyeMed membership, you have the power to get exactly what you want – without settling for less.

VALUE

My eyes are just fine

Think you don't need vision care? Think again. Some health problems may show signs through your eyes – signs you don't want to miss.

WELLNESS

No matter why you're here, we think you'll like it

VALUE

See who you want, when you want

You have access to thousands of in-network providers— independent eye doctors, your favorite retail stores, even online options. Many of them are PLUS Providers, which offer even more perks for EyeMed members. Try the Provider Locator on eyemed.com to find your perfect provider.

Shop with freedom

Choose from any frame or brand. From image-conscious to budget-conscious, you have the freedom to find the right fit. Because life is too short to settle.

Enjoy savings that add up

As a member, you'll get additional special offers and savings on eyewear and eye care when you stay in-network. Want even more savings? Visit a PLUS Provider. The extra savings are built right into your benefits, so it's easy to watch them add up.

Get help from the vision experts

Our support tools make benefits easy to understand and easy to use. Create an account on our Member Web to view eligibility and coverage, use our cost estimator and search for in-network providers. Enroll in our e-newsletter for the latest in vision. Stay mobile with the EyeMed App and text alerts. And enjoy our award-winning wellness website (eyesiteonwellness.com).

WELLNESS

Spot health problems sooner

An eye exam can spot signs of diabetes, high blood pressure, high cholesterol and heart disease.¹ Not to mention cataracts and glaucoma. See it sooner. Treat it sooner.

Don't live with eye strain

Every day, we spend hours staring at phones, laptops and tablets. In fact, the average American spends over 7 hours looking at a screen each day.² All this exposure can put strain on our eyes and may be linked to blurred vision, dry eye and headaches.

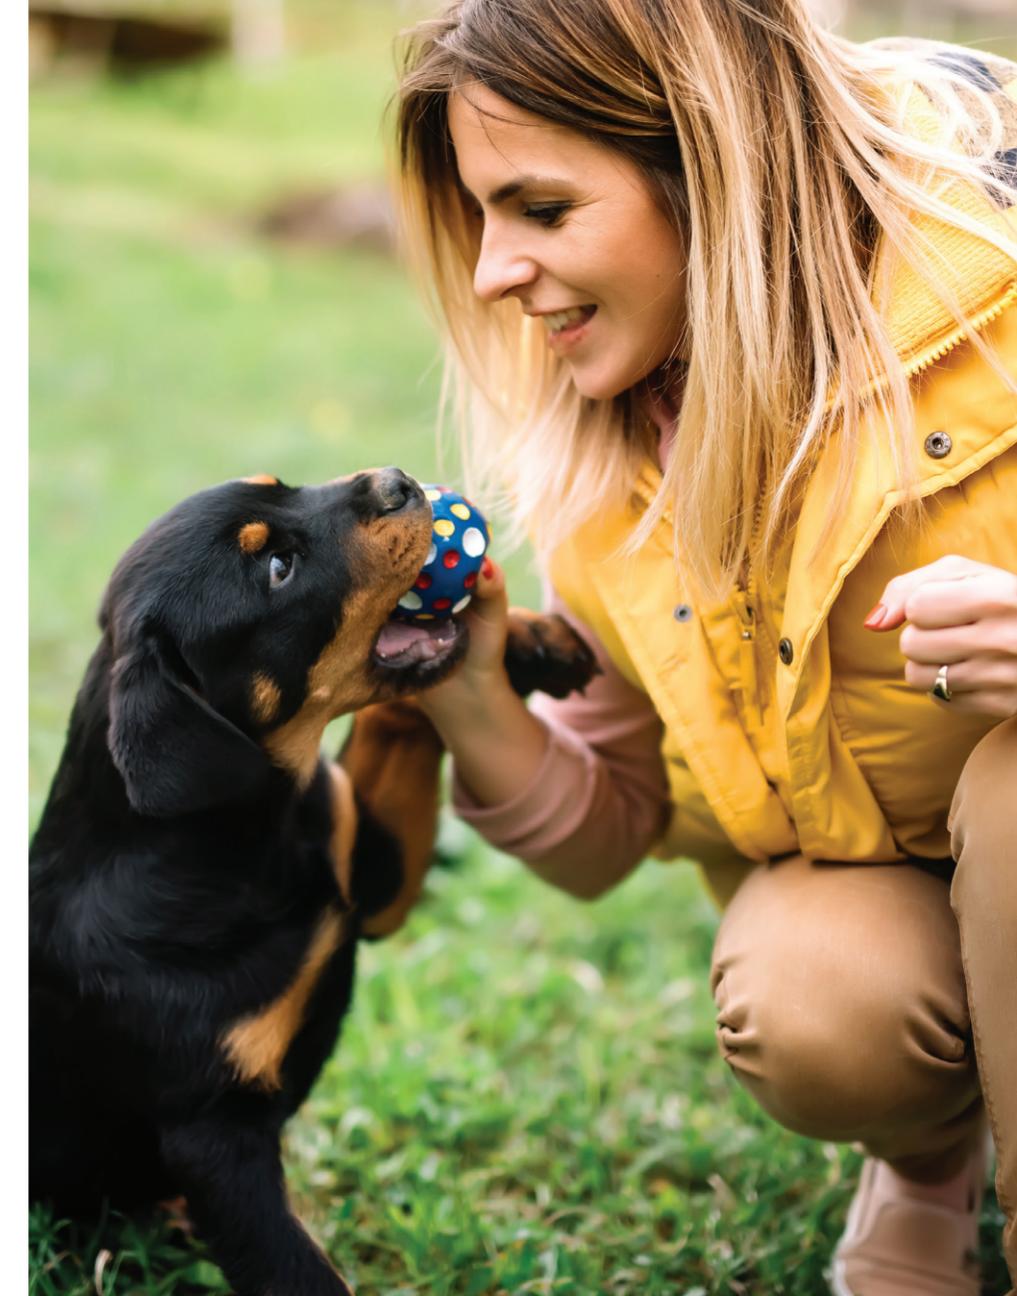

Avoid vision creep

Your eyes are always changing (you probably don't even notice it). Our network doctors can track even the slightest changes with the latest in digital exam technology and retinal imaging. Designed for your comfort. Fine-tuned for precision.

Soak up the sun—safely

UV rays can cause cataracts, macular degeneration, vision loss and eye sunburn. Even in winter. Sunglasses can easily block 99% of these rays.³ Thankfully, EyeMed benefits include discounts on non-prescription sunglasses.

PLUS Providers offer an extra level of savings built right into your vision care. Look for this PLUS Provider symbol when you use our Provider Locator.
